

Mikołaj Germanenka

FULL-STACK DEVELOPER

Poznań, Poland | EU Citizen | +48 573 348 465 | kolyangermanenko@gmail.com
[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full-Stack Developer specializing in React, Next.js, TypeScript, and PostgreSQL. Hands-on commercial experience from two internships and production-oriented personal projects covering responsive interfaces, REST API integration, authentication, role-based access control, database design, file uploads, and cloud deployment. Comfortable working in Agile teams with Git, Jira, GitLab/GitHub, and Postman. Focused on maintainable architecture, type safety, accessibility, and reliable user experience.

CORE COMPETENCIES

- End-to-end feature development
- Database modeling with Prisma
- REST API integration
- Secure authentication and RBAC
- Responsive and accessible UI
- Cloud deployment and debugging

TECHNICAL SKILLS

Frontend: React, Next.js App Router, TypeScript, JavaScript (ES6+), HTML5, CSS3/SCSS, Tailwind CSS, Material UI, Framer Motion
State & data: TanStack Query (React Query), Redux Toolkit, MobX
Backend: Next.js Route Handlers, Node.js, REST APIs, JWT authentication, HTTP-only cookies, role-based access control
Database & cloud: Prisma ORM, PostgreSQL, Neon, Cloudinary, Supabase, Vercel
Tools: Git, GitHub, GitLab, Postman, Jira, Vite
Practices: Responsive design, SSR/SSG, API integration, form validation, Agile/Scrum, code review

PROFESSIONAL EXPERIENCE

Frontend Developer Intern | Sysmo.pl - IT Solutions

May 2025 - July 2025 | Poland

- Built user and company management interfaces using Next.js, TypeScript, Material UI, and React Query.
- Implemented forms, data tables, validation, API-driven loading states, and error handling.
- Integrated REST endpoints and verified request/response flows with Postman.
- Collaborated through GitLab, Jira, sprint tasks, and team code review.
- Created reusable UI patterns for loading, empty, success, and error states.

Frontend Developer Intern | Forte Group

April 2024 - February 2025 | Poland

- Contributed to internal dashboards using React and TypeScript.
- Implemented reusable forms, REST API integrations, and dynamic data presentation.
- Tested endpoints with Postman and supported issue tracking and task delivery in Jira.
- Used Git-based workflows and collaborated with developers on feature implementation and fixes.
- Participated in Agile team routines, including task planning, daily updates, and code review.

SELECTED PROJECTS

Job Tracker - Full-Stack Recruitment Platform [View project](#)

2026 - Present

- Developing a role-based recruitment platform for job seekers, recruiters, and administrators using Next.js App Router and TypeScript.
- Implemented JWT authentication with HTTP-only cookies, protected routes, middleware, and role-based authorization.
- Designed Prisma/PostgreSQL models for users, vacancies, and applications, including relational constraints and indexed queries.
- Built vacancy CRUD APIs, profile editing, Cloudinary avatar uploads, React Query data fetching, and cache invalidation.
- Configured PostgreSQL on Neon and deployment workflows for Vercel; resolved production build and route-handler typing issues.

Tech stack: Next.js, TypeScript, React Query, Tailwind CSS, Prisma, PostgreSQL, Neon, Cloudinary, JWT, Vercel

Bookstore Web Application [View project](#)

2025

- Built a full-stack bookstore with server-rendered pages, authentication, and CRUD operations for books.
- Integrated PostgreSQL through Prisma ORM and implemented image storage with Supabase.
- Created responsive interfaces with Next.js, TypeScript, and Tailwind CSS and deployed the application to Vercel.

Tech stack: Next.js, TypeScript, Prisma, PostgreSQL, NextAuth, Supabase, Tailwind CSS, Vercel

Games Collection PWA [View project](#)

2024

- Developed a progressive web application containing Wordle, Battleship, Hangman, and a sliding puzzle.
- Implemented multilingual support in English, Polish, Russian, and Ukrainian and managed application state with MobX.
- Configured offline-ready PWA behavior with VitePWA and deployed the project through GitHub Pages.

Tech stack: React, TypeScript, MobX, Tailwind CSS, Vite, VitePWA

Next.js Pizza Store

2025

- Built an e-commerce-style food ordering application with product categories, configurable ingredients, and a cart drawer.
- Implemented filters by price, product type, and ingredients with client-side state managed through Redux Toolkit and React Query.
- Connected a Prisma/PostgreSQL data layer to Next.js and created responsive interfaces for desktop and mobile.

Tech stack: Next.js, TypeScript, Redux Toolkit, React Query, Prisma, PostgreSQL, Tailwind CSS

EDUCATION

Informatyka i analiza danych (Computer Science and Data Analysis) | Uniwersytet Ekonomiczny w Poznaniu

2026 - Present | Poznań, Poland

IT Technician - Programmer | Zespół Szkół Ekonomicznych im. S. Staszica

2024 - 2026 | Poznań, Poland

- Qualification INF.03 - Creating and managing websites, web applications, and databases. Exam score: 93%.

CERTIFICATION

Meta Front-End Developer - Introduction to Front-End Development | Coursera, 2024

LANGUAGES

Polish - C1 | English - B2 | Russian - Native
